**INDICATIONS:** ANTISEDAN is indicated for the reversal of the sedative and analgesic effects of DEXDOMITOR (dexmedetomidine hydrochloride), and DOMITOR (medetomidine hydrochloride) in dogs.

**DOSE AND ADMINISTRATION:** ANTISEDAN is administered intramuscularly (IM) for reversal of sedation and analgesia regardless of the route of DEXDOMITOR or DOMITOR administration. The antipodal dose for the reversal of IV DEXDOMITOR or DOMITOR is 3750 mcg/kg. The antipodal dose for the reversal of IM DEXDOMITOR or DOMITOR is 5500 mcg/kg.

The dosage of ANTISEDAN is calculated based on body surface area. Use the following tables to determine the correct injection volume or the correct ANTISEDAN dosage on the basis of kilograms of body weight.

Note that the mcg/kg dosage decreases as body weight increases.

**CONTRAINDICATIONS:** Since atipamezole is always used concomitantly with dexmedetomidine or medetomidine, it should not be used in dogs with the following conditions: cardiac disease, respiratory disorders, liver or kidney diseases, dogs in shock, severely debilitated dogs, or dogs stressed due to extreme heat, cold or fatigue. Administration of atipamezole is contraindicated in dogs with a known hypersensitivity to the drug.

**HUMAN WARNINGS:** For human use. Keep out of reach of children. Atipamezole hydrochloride can be absorbed and may cause irritation following direct exposure to skin, eyes, or mouth. In case of accidental eye exposure, flush with water for 15 minutes. In case of accidental skin exposure, wash with soap and water. Remove contaminated clothing. If irritation or other adverse reaction occurs (for example, increased heart rate, tremor, muscle cramps), seek medical attention. In case of accidental oral exposure or injection, seek medical attention. Caution should be used while handling and using filtered syringes.

**Users with cardiovascular disease (for example, hypertension or ischemic heart disease) should take special precautions to avoid any exposure to this product.**

The material safety data sheet (MSDS) contains more detailed occupational safety information.
