

READY TO GO. EASY TO USE.

EXCENEL® RTU EZ
(ceftiofur hydrochloride)
Sterile Suspension

0% MILK DISCARD. 100% PEACE OF MIND.

EXCENEL® RTU EZ (ceftiofur hydrochloride) Sterile Suspension is an effective anti-infective approved by the Food and Drug Administration (FDA) for the treatment of acute postpartum metritis as well as BRD and foot rot. EXCENEL RTU EZ not only produces high efficacy rates but also delivers the peace of mind and profitability that come with no milk discard.¹

BACKED BY THE RESIDUE FREE GUARANTEE™

When you use EXCENEL RTU EZ according to label indications, you won't have to worry about a violative residue for ceftiofur in milk or meat. That's because EXCENEL RTU EZ is backed by the Residue Free Guarantee™.

LABELED INDICATIONS

You can confidently use EXCENEL RTU EZ for the following indications:

INDICATION	DOSAGE	MILK WITHHOLD	MEAT WITHDRAWAL
Treatment of postpartum metritis	2 mL/100 lbs. body weight for 5 days ROA: Sub-Q or IM [†]	0 days	4 days
Treatment of bovine respiratory disease (BRD)	1 to 2 mL/100 lbs. body weight for 3 to 5 days ROA: Sub-Q or IM [†]	0 days	4 days
Treatment of foot rot	1 to 2 mL/100 lbs. body weight for 3 to 5 days ROA: Sub-Q or IM [†]	0 days	4 days

[†]Route of administration (ROA): IM=Intramuscular, Sub-Q=Subcutaneous

Residue Free Guarantee: If you use a Zoetis-branded ceftiofur product according to label indications, and experience a violative ceftiofur milk or meat residue, Zoetis will compensate you for the beef market value of the animal or purchase the tanker of milk at fair market value. You must purchase the product from a Zoetis-approved supplier, use the product according to label indications, have documentation of the product purchase and treatment records, and have conducted training on appropriate use to ensure proper dose and route of administration of the product. Extra-label use as prescribed by a veterinarian is excluded from the guarantee. If you experience a ceftiofur residue violation after following label indications and the above steps, contact Zoetis VMIPS (Veterinary Medical Information and Product Support) at 800-366-5288 to report the situation.

READY FOR WORK

EXCENEL RTU EZ provides the same effective treatment as EXCENEL RTU but is significantly more syringeable.²

Effective — EXCENEL RTU EZ effectively treats acute metritis. It's also indicated for the treatment of BRD and foot rot.

Zero milk discard — When it is used according to label directions, you'll never have to discard milk. No wasted milk ensures a better return on investment.

Short, four-day meat withdrawal — EXCENEL RTU EZ has a short, four-day pre-slaughter withdrawal time, one of the shortest withdrawal times of treatments on the market today.

No hospital pen — Zero milk discard means no trip to the hospital pen, maximizing performance and productivity from the fresh cow program.

Ready to use — No special preparations, no mixing — ready to use right out of the bottle.

EXCENEL RTU EZ works right off the shelf to treat cows quickly and effectively. EXCENEL RTU EZ is the ultimate choice for ease and convenience.

Important Safety Information: EXCENEL RTU EZ should not be used in animals found to be hypersensitive to the product. EXCENEL RTU EZ has a pre-slaughter withdrawal period of four days following the last dose.
