

VITAMINS AD₃E

KEY POINTS

- Highly concentrated for economical use
- Disperses rapidly, even in cold water
- Stable source of vitamin E activity

DIRECTIONS:

Water dispersible vitamin A, D₃ and E for use in drinking water during periods of reduced feed intake. Use 1 oz to 128 gallons of drinking water. This will supply 88,593 IU A, 22,148 IU D₃ and 44.3 IU vitamin E in each gallon of drinking water.

Mix fresh solutions daily.

**Store at moderate temperatures, in tight containers.
Keep away from heat, sparks and open flame.**

Ingredients: Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Polyethylene Glycol (400) Monooleate, Mineral Oil, N-Propanol, BHT

A supplementary nutrition for hogs, chickens, turkeys, calves, and beef cattle.

Store in a cool, dry place
