SAFETY DATA SHEET

1. Identification

in administration	
Product identifier	Fluvac Innovator
Other means of identification	
Synonyms	Fluvac * FLUVAC® INNOVATOR * Fluvac Innovator® * Equine Influenza Vaccine, Killed Virus
Recommended use	Veterinary vaccine
Recommended restrictions	Not for human use
Manufacturer/Importer/Supplier/	Distributor information
Company Name (US)	Zoetis Inc.
	10 Sylvan Way
	Parsippany, New Jersey 07054 (USA)
Rocky Mountain Poison	1-866-531-8896
and Drug Center Product Support/Technical	1-800-366-5288

2. Hazard(s) identification	
Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	The mixture does not meet the criteria for classification.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	Direct contact with eyes may cause temporary irritation. In the event of accidental injection, an allergic reaction may occur.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Equine Influenza Virus, Killed Virus		NOT ASSIGNED	*
Neomycin B		119-04-0	##

4. First-aid measures			
Inhalation	Move to fresh air. Call a physician if symptoms	s develop or persist.	
Skin contact	In the case of skin contact, immediately wash the skin with plenty of soap and water. In the event of accidental self injection or needle stick injury, wash the injury thoroughly with clean running water. Get medical attention immediately.		
Eye contact	Rinse thoroughly with plenty of water for at lea contact lenses, if present and easy to do.	ist 15 minutes and consult a p	hysician. Remove
Ingestion	Rinse mouth. Call a physician or poison contro instruction of medical personnel. Never give a		
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary redness, or discomfort. In the event of accider and symptoms might include skin rash, itching characterized by rhinitis, sneezing, scratchy th edema, coughing, shortness of breath, wheezi with acute exposures in sensitized patients.	ntal injection, an allergic reacti , redness or swelling. Respira rroat, oral mucosal edema, lar	on may occur. Signs tory reactions may be yngeal mucosal
Indication of immediate medical attention and special treatment needed	Treat symptomatically.		
General information	For personal protection, see section 8 of the S material(s) involved, and take precautions to p		onnel are aware of the
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbo	on dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this	s will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be	formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full pro	otective clothing must be worr	in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do s	o without risk.	
Specific methods	Use standard firefighting procedures and cons	ider the hazards of other invo	ved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For perso	nal protection, see section 8 c	f the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is spreading. Absorb in vermiculite, dry sand or e recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material remove residual contamination.	(e.g. cloth, fleece). Clean surf	ace thoroughly to
Environmental precautions	Never return spills to original containers for re- Avoid discharge into drains, water courses or o	•	section 13 of the SDS

7. Handling and storage Precautions for safe handling	Avoid contact with eyes, skin, and clothing. Av injection. Wash thoroughly after handling. Whe protective equipment. Avoid release to the env practices.	en using, do not eat, drink or s	moke. Wear persona

Store out of direct sunlight in dark, dry conditions. @ $2 - 7^{\circ}C$ (36 - $45^{\circ}F$). Do not freeze. Store in original tightly closed container. Keep away from heat, sparks and open flame. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Zoetis Components	Туре	Value
Neomycin B (CAS 119-04-0)	TWA	100 μg/m3
US. OSHA Table Z-2 (29 CF	R 1910.1000)	
Components	Туре	Value
Thimerosal (CAS 54-64-8)	Ceiling TWA	0.04 mg/m3 0.01 mg/m3
US. ACGIH Threshold Limit		0.01 mg/m3
Components	Туре	Value
Thimerosal (CAS 54-64-8)	STEL	0.03 mg/m3
	TWA	0.01 mg/m3
US. NIOSH: Pocket Guide to		
Components	Туре	Value
Thimerosal (CAS 54-64-8)	STEL TWA	0.03 mg/m3 0.01 mg/m3
Biological limit values	No biological exposure limits noted for th	ne ingredient(s).
Exposure guidelines		
US - California OELs: Skin (designation	
Thimerosal (CAS 54-64-6 US - Tennessee OELs: Skin		bsorbed through the skin.
Thimerosal (CAS 54-64-8 US ACGIH Threshold Limit		bsorbed through the skin.
Thimerosal (CAS 54-64-6 US NIOSH Pocket Guide to	8) Can be a Chemical Hazards: Skin designation	bsorbed through the skin.
Thimerosal (CAS 54-64-6	8) Can be a	bsorbed through the skin.
Control banding approach	Polymyxin B: Zoetis OEB 2 - Sensitizer (control exposure to the range of 100ug/m3 to < 1000ug/m3, provide additional precautions to protect from skin contact)	
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally adequate.	
	, such as personal protective equipment	
Eye/face protection	If contact is likely, safety glasses with sid	de shields are recommended.
Skin protection		
Hand protection	Wear impervious gloves if skin contact is	
Other	Wear suitable protective clothing. Use protective clothing (uniforms, lab coats, disposable coveralls, etc.) in both production and laboratory areas.	
Respiratory protection	No personal respiratory protective equipment normally required. In case of insufficient ventilation, wear suitable respiratory equipment. If the applicable Occupational Exposure Limit (OEL) is exceeded, wear an appropriate respirator with a protection factor sufficient to control exposures to below the OEL.	
Thermal hazards	Not applicable.	
General hygiene considerations		measures, such as washing after handling the material ing. Routinely wash work clothing and protective

9. Physical and chemical properties

9. Physical and chemical p	properties
Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Pale yellow - Red White.
Odor	Odorless.
Odor threshold	Not available.
рН	6 - 8
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	100 %
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Sunlight. Store at 2-7°C. Prolonged exposure to higher temperatures may adversely affect potency. Do not freeze.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.
AA TO SUCCESSION .	

11. Toxicological information

Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.
Skin contact	Prolonged skin contact may cause temporary irritation.
Eye contact	Direct contact with eyes may cause temporary irritation.

Ingestion

Symptoms related to the physical, chemical and toxicological characteristics

Expected to be a low ingestion hazard.

Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation, redness, or discomfort. In the event of accidental injection, an allergic reaction may occur. Signs and symptoms might include skin rash, itching, redness or swelling. Respiratory reactions may be characterized by rhinitis, sneezing, scratchy throat, oral mucosal edema, laryngeal mucosal edema, coughing, shortness of breath, wheezing, and chest pain. Asthma like reactions occur with acute exposures in sensitized patients.

Information on toxicological effects

Acute toxicity

Components	Species		Test Results
Neomycin B (CAS 119-04-0)			
<u>Acute</u>			
Intravenous			
LD50	Mouse		24 mg/kg
Oral			
LD50	Rat		1250 mg/kg
Polymyxin B (CAS 1404-26-8)			
<u>Acute</u>			
Oral			
LD50	Mouse		790 mg/kg
Other			
LD50	Mouse		3980 ug/kg
Subcutaneous			
LD50	Rat		50 mg/kg
Thimerosal (CAS 54-64-8)			
<u>Acute</u>			
Oral			
LD50	Mouse		91 mg/kg
	Rat		75 mg/kg
Subcutaneous			
LD50	Rat		98 mg/kg
Skin corrosion/irritation	Prolonged skin contact may c	ause temporary irritatio	n.
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Eye Contact Thimerosal		Species: Rabbit Severity: Mild	
Respiratory or skin sensitization			
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization			d to be a skin sensitizer. This product is not
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Mutagenicity			
Polymyxin B		In Vitro Result: Negative	
		In Vivo Result: Negative	

Carcinogenicity

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Not listed. OSHA Specifically Regulate Not regulated.	Evaluation of Carcinogenicity d Substances (29 CFR 1910.1001-1050) ogram (NTP) Report on Carcinogens
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not an aspiration hazard.
Chronic effects	Prolonged inhalation may be harmful.
Further information	Allergic reactions are possible. The antigens included in this product are non-infectious. All have been prepared from killed or inactivated preparations of microorganisms.
12. Ecological information	I
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Avoid release to the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

•	
Disposal instructions	Avoid release to the environment. Do not discharge into drains, water courses or onto the ground. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater. This product contains trace quantities of mercury and may qualify as a RCRA Hazardous Waste. Status should be confirmed using the EPA Toxicity Characteristic Leaching Procedure (TCLP). Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company. This product contains trace quantities of mercury, releases to the environment should be avoided.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

15. Regulatory informatio	n	
US federal regulations	This product is not known to be a "Hazardous Chemical" as a Communication Standard, 29 CFR 1910.1200.	lefined by the OSHA Hazard
