

5 Clips (50 Doses)

Moraxella Bovis Bacterin

SolidBac[®] Pinkeye IR/PR[®]

COMPOSITION: Each dose contains a combination of immediate release (IR) and programmed release (PR) antigen pellets and includes the antigen equivalent of two (2) doses of Moraxella Bovis Bacterin.

INDICATIONS: For the vaccination of healthy cattle as an aid in the prevention and control of pinkeye (infectious bovine keratoconjunctivitis) caused by *Moraxella bovis*.

DOSAGE AND ADMINISTRATION: Administer the entire contents (2 SoliDose[®] pellets) of one clip channel subcutaneously in the neck or in the BASE of the ear of cattle 3 months of age or older using the SoliDoser[®] delivery system.

CAUTION: Store at 2° to 7° C (35° to 45° F). Disinfect and dry needle between doses. Use entire contents when first opened. Do not vaccinate within 21 days before slaughter. Preservative: Gentamicin. Administer epinephrine if allergic reaction occurs.

For Cattle Use Only.
