crLYME

Injectable

50 Vials (1 dose: 1 mL)

# Borrelia Burgdorferi Bacterial Extract

**VANGUARD**®

# crLYME

Injectable

This product has been shown to be effective for the vaccination of healthy dogs 8 weeks of age or older against *Borrelia burgdorferi*. Duration of immunity of at least 15 months has been established. For more information regarding efficacy and safety data, go to [productdata.aphis.usda.gov](http://productdata.aphis.usda.gov).

**Directions:** Shake well and aseptically administer 1 mL subcutaneously. Healthy dogs should receive 2 doses administered 3 weeks apart. Historically, annual revaccination with this product has been recommended. The need for annual booster vaccinations has not been established; consultation with a veterinarian or the manufacturer is recommended.

**Precautions:** Store at 2°-8°C. Do not freeze. Sterilized syringes and needles should be used to administer this vaccine. Vaccination of pregnant bitches should be avoided. In case of anaphylaxis, administer epinephrine or equivalent. Do not mix with other products. In case of human exposure, contact a physician.

Technical inquiries should be directed to Zoetis Inc. Veterinary Services, (888) 963-8471.

This product has been shown to be efficacious in healthy animals. A protective immune response may not be elicited if animals are incubating an infectious disease, are malnourished or parasitized, are stressed due to shipment or environmental conditions, are otherwise immunocompromised, or the vaccine is not administered in accordance with label directions.
