DOG AND CAT POOP COLOR CHART

There are characteristics of unhealthy vs. healthy poop that may mean a vet visit is needed. Learn what your pet's normal poop looks like and watch for changes. Some color or texture changes may be due to diet and not a medical issue. Keep this poop chart handy and contact your vet if you see any abnormal colors.

DARK BROWN
Normal. Try to get a sense for what your pet's poop normally looks like.

GREEN
Could be gallbladder or bile issues.

ORANGE/YELLOW
May be a biliary or liver issue.

RED STREAKS
Could be blood in the stool.

BLACK AND TARRY
May be bleeding in the upper GI tract.

GREY AND GREASY
Pancreas, digestion or biliary issue.

WHITE SPOTS
If they look like rice grains, it may be a sign of intestinal parasites.
