Dear Customer:

Re: NOLVASAN S (EPA Reg. No. 1007-100), Chlorhexidine diacetate scented disinfectant

You recently received a letter from Zoetis requesting a temporary Stop Sale for the product, Nolvasan S (Chlorhexidine diacetate) scented disinfectant, available in:

- Nolvasan S 16 oz. bottles (Item Number / SKU 10004041)
- Nolvasan S 1 gallon size bottles (Item Number / SKU 10004044)

Zoetis has been expediting state approvals for the new EPA Reg. No. 1007-100 for these products and we are pleased to advise that both Nolvasan S 16 oz. and 1 gallon size bottles are now approved for distribution and sale in most US states. The states / U.S. territories where approvals remain pending are:

AL, CT, HI, IA, MA, ME, SD, TX, Puerto Rico and US Virgin Islands

Please note that before shipping or transporting this product outside a state where it is approved, you should verify that the product is approved in the specific state to which it is being shipped.

We expect the remaining state approvals to be granted within the next 3 weeks. If you are in a state or territory that has not yet been granted registration of Nolvasan S with the Zoetis EPA Reg. No. 1007-100, please visit <https://www.zoetis.com/NOLVASANS> for an update on your state or territory's approval.

We sincerely apologize if the temporary Stop Sale has caused any inconvenience to you or your customers.

Please contact Zoetis Customer Service at 1-888-ZOETIS1 (963-8471) should you have any questions.

Sincerely,

Jim Fredrick

Director, Zoetis Customer Service
