

**Subject Line:** This checklist can help you see if your cat may have OA pain

**Preheader:** See the Cat Osteoarthritis Pain Checklist

Has your cat been acting differently lately? She may be in pain.

Did you know  
that osteoarthritis  
pain is present in nearly

**40%**  
of cats?<sup>1</sup>

**Osteoarthritis (OA) pain can be difficult to spot in cats. The Cat Osteoarthritis Pain Checklist can take out some of the guesswork.**

[Try the interactive checklist now](#)

**It's not always easy to see whether cats are in pain—they are masters at hiding it!** Good news: veterinary experts have identified behavior changes that can help you understand whether your cat may be suffering.

Cat owners like you can use the Cat Osteoarthritis Pain Checklist\* to watch for, and note, any changes in your cat's behavior at home. You know your cat best!

Your checklist results can help your veterinarian diagnose whether osteoarthritis pain is the reason your cat is acting differently. You can write down, print, or email your checklist responses to our clinic. Together, we can make sure your cat receives the care she deserves.

You can also [download the checklist](#) and print it.

**If you think your cat has OA pain, give us a call.  
We're happy to help you find options to help your cat.**

## Discover more educational resources on OA pain

In addition to the checklist, here are some articles from Zoetis Petcare that may help you understand OA pain in your cat:
